Absorption v elimination

Mapping complex situations

- Attractors

- Boundaries

- Identity

- Diversity

- Environment includes context & time

this is a social object.

hugh

It is naïve to expect any bureaucracy to take brilliant innovations and put them to good use. Bureaucracies ask different questions... These are the typical questions, ... : Who gets the credit? Who will be blamed if it causes problems? Will it shift the power structure, costing jobs? Or will it make some subordinate department more important?

Darwi Odrade
Chapter House Dune

reducing conflict

- All should be

  - multiple in parallel

  - safe-to-fail

  - coherent & contradictory

- Some must be

  - oblique

  - naive

  - designed to fail
